Subject: RE: Buckland Road

Dear Joan

Thank you for your telephone call of 22 May and your following email. I have since had the opportunity to speak with Mr Gregan of the Gregan Family Trust in respect of Buckland Road and the issues relevant to 385 and 399 Buckland Road. Mr Gregan has responded with the following:

1. The issues that the Landowners have is with the hump in the road between 385 and 399 Buckland Road.
2. The Landowners say that that hump did not exist before in or about November 2013.
3. The Landowners say that the hump in the road was created by result of work done to the road by the Matamata Piako District Council.
4. Those roadworks were effected in or about November 2013.
5. There had been no significant issues with the subject section of road before those roadworks were commenced.
6. The hump in the road has now made ingress and egress of both 385 and 399 Buckland Road unsafe. Mr Gregan understands that the rural mail service to 399 Buckland Road has now been discontinued due to the unsafe nature of the road.

I trust this account reflects what was discussed in our conversation yesterday. If you require any further information please do not hesitate to contact this writer in the first instance.

Yours sincerely

Richard Smith
