

A. CARRIAGEWAY VARIATION - SPLITTER ISLAND
 - for mild speed control

B. CARRIAGEWAY VARIATION - THRESHOLDS

- Narrowing the entrance to a street, incorporating planting for reinforcement signifies a more pedestrian-orientated environment. Introduction of paving materials or incorporation of footpaths to improve speed control further reinforces the 'traffic route' vs 'residential zone' distinction

C. CARRIAGEWAY VARIATION - CHANGE OF ALIGNMENT AT INTERSECTION
 - for mild speed control
