Plan Change 54 : Papakamga

Dear Kurneshni Naidu.

I have concerns:

Lack of cultural sensitivity;

I have received to my address about 6 letters re the above that are named to other people.

Most of these people are passed away.

I object to this way of letter sending

also others have made submissions and you have asked them to hold a meeting.

Surely its your place to call a meeting of shareholders. You are proposing changes without consultation with these people. Who belong to the land involved.

Where are you getting your advice from?

I feel its all wrong.

And Waiti marae is just that (not Waitara)

Waitara is a historic name that belongs to another place.

Another mistake that is objectional.
